Are you submitting on behalf of an organisation?

No, I'm submitting as an individual

Which age category are you in?

40-64 years old

Do you wish to speak to your submission at a Council hearing?

No

Which bus fare structure option would you like to see trialled?

Option 1 (preferred): Fare-free for under 25s, students, Total Mobility and Community Services card holders

Tell us more about why you support the selected bus fare option.

I have two children who catch the bus from Rolleston to Christchurch Mon - Fri to attend school. They bus back to Rolleston after school. We spend close to \$200 a month on bus fares. Next year I will have 3 children travelling into Christchurch for school so will be closer to \$300 a month. Option one means they won't pay anything so will free up a lot of money in our household.

Any other comments on bus fares?

Option two would be our second choice as we would still save money as the fares would be cheaper.

Is borrowing and repaying through general rates the right approach for this regionally significant event?

Don't know

How do you think recovery from flooding of this scale – events that impact state highways, bridges, rail and power for example – should be funded in the future?

Government should pay for it as we pay a lot of tax through fuel and vehicle registration.

Which option for distribution of rates in Ashburton River rating district do you support?

I don't have a preference

Would you support a levy to accelerate action in response to climate change?

No
