No

**Which bus fare structure option would you like to see trialled?**

Option 1 (preferred): Fare-free for under 25s, students, Total Mobility and Community Services card holders

---

**Tell us more about why you support the selected bus fare option.**

Buses are certainly the future, my only issue is these are the people who already use buses, how will others not in these groups be incentivised to travel by bus?

---

**Is borrowing and repaying through general rates the right approach for this regionally significant event?**

Don't know

---

**Which option for distribution of rates in Ashburton River rating district do you support?**

Option 1 (preferred): Redistribute rates in the Ashburton River rating district.

---

**Would you support a levy to accelerate action in response to climate change?**

Yes

---

**What current or future projects or activities would you like to see funded by such a levy?**

Anything regarding the dairy industry and a transition to cleaner modes of transport, ending the use of coal and educating the public about positive action they can take.

---

**Any other comments on future funding for responding to climate change?**

This should be a major priority, as more money spent now could save 10 fold later. This is a crisis, I think if we have to go into debt in the short term to make the crucial long term changes this should happen.
