Option 1 (preferred): Fare-free for under 25s, students, Total Mobility and Community Services card holders

It does the most to support people and planet. It will not save me money, but I hope it will help buses be reliable for my area. I would love to see more people using the buses.

**Any other comments on bus fares?**

Removing bus fares for these groups will help with the just transition away from fossil fuels. In future, I would prefer for public transport to be free for more people too.

Don't know

I don't have a preference

Yes

Community gardens, 20 minute city, 15 minute neighbourhoods, grants for insulation for homes, transition projects, etc.

---

**Any other comments on future funding for responding to climate change?**

Just transition projects! We must be preparing for low energy futures.
