No

---

**Which bus fare structure option would you like to see trialled?**

Option 2: \$2 flat fare for adults and \$1.20 for children across bus zones 1, 2 and 3

---

**Tell us more about why you support the selected bus fare option.**

I have bussed 5 days a week for about the last 7 years. I feel that Option 2 provides the best way to encourage people to bus. It means that everyone has a chance for their fare to be reduced and evened out. In Christchurch City the parking cost keeps going up however for Adults the buses are still not cheap enough to outway the convenience of driving into town. To increase the amount of people bussing there needs to be an incentive and making it only four dollars is that as compared to parking people will save money. More people bussing might also mean that more bus routes or frequent busses could be implemented making it more attractive to everyone.
