No

Which bus fare structure option would you like to see trialled?

Option 1 (preferred): Fare-free for under 25s, students, Total Mobility and Community Services card holders

Tell us more about why you support the selected bus fare option.

Being able to catch a bus is incredibly important for everyone who is unable to drive and that is a vast population. Accessibility is so important and apart of that is lowering the price or creating free travel for those throughout the community. Some weeks I am unable to attend University due to not being able to simply afford the bus.

Any other comments on bus fares?

The rise in price has made catch the bus not accessible as it used to be.

Is borrowing and repaying through general rates the right approach for this regionally significant event?

Don't know

Would you support a levy to accelerate action in response to climate change?

Yes
