No

Which bus fare structure option would you like to see trialled?

Option 1 (preferred): Fare-free for under 25s, students, Total Mobility and Community Services card holders

Tell us more about why you support the selected bus fare option.

Bussing is a very accessible option with numerous benefits including less congestion on our roads and reduced CO2 emissions. However, as a university student, it has become increasingly difficult to be able to afford the bus fares, especially since shifting from the child's fare to the adults one. Minimising the cost that we have to pay would re-establish bussing as an accesible and affordable transport option.

Is borrowing and repaying through general rates the right approach for this regionally significant event?

Don't know

I don't have a preference
