No

Which bus fare structure option would you like to see trialled?

Option 1 (preferred): Fare-free for under 25s, students, Total Mobility and Community Services card holders

Tell us more about why you support the selected bus fare option.

As a student I am already in enough debt, by having free bus fares it allows me to be able to get around the city and do things I need to do without such a cost. I also believe it will greatly increase the amount of people using the buses which will lead to a decrease in cars on the road and also decrease led emissions

Is borrowing and repaying through general rates the right approach for this regionally significant event?

Don't know

I don't have a preference
