Subject: Submission on draft Annual Plan 2022/23

Anonymous User just submitted 'Draft Annual Plan 2022/23 submission' with the responses below.

First name

Jennifer

Last name

Baker

Email address

Suburb

Woolston, Christchurch

Phone number

Are you submitting on behalf of an organisation?

No, I'm submitting as an individual

Which age category are you in?

25-39 years old

Do you wish to speak to your submission at a Council hearing?

No

Which bus fare structure option would you like to see trialled?

Option 2: \$2 flat fare for adults and \$1.20 for children across bus zones 1, 2 and 3

Tell us more about why you support the selected bus fare option.

I think this bus fare option is the fairest option for everyone. I use the bus every day and this would make a significant difference for me.

Any other comments on bus fares?

I love using the bus every day but any reduction in bus fares would make a significant difference for me as I do not have any other means of transport (other than walking of course!). Thank you.

Is borrowing and repaying through general rates the right approach for this regionally significant event?

Yes

How else might we pay for our share of this work?

Flooding is becoming more and more prevalent recently (just look at the West Coast!). So we must plan and recover for it. This should be paid through rates and/or perhaps government funding.

How do you think recovery from flooding of this scale – events that impact state highways, bridges, rail and power for example – should be funded in the future?

Perhaps a mix of rates and government funding?

Which option for distribution of rates in Ashburton River rating district do you support?

Option 1 (preferred): Redistribute rates in the Ashburton River rating district.

Would you support a levy to accelerate action in response to climate change?

Yes

What current or future projects or activities would you like to see funded by such a levy?

A bigger range of things that can be recycled. Sadly many things cannot be recycled at the moment even though they have the "can be recycled" logo on them but we do not have the facilities to recycle them in Chch.

Any other comments on future funding for responding to climate change?

We must act now to reduce our impact on climate change in the future.

Where did you hear about the consultation?

Print ad or billboard
