---

**Tell us more about why you support the selected bus fare option.**

When I lived in Tauranga there was a trial of free bus rides for students which had a huge effect on the amount of people who caught the bus who would otherwise drive. The trial ran for a year then was extended to two years. This significantly decreased traffic congestion in the area which had four schools in close proximity. Now, as a uni student getting on the bus is great to explore a new city but doing it without the guilt of the added cost would be great.
