Are you submitting on behalf of an organisation?

No, I'm submitting as an individual

Which age category are you in?

15– 24 years old

Do you wish to speak to your submission at a Council hearing?

No

Which bus fare structure option would you like to see trialled?

Option 2: \$2 flat fare for adults and \$1.20 for children across bus zones 1, 2 and 3

Tell us more about why you support the selected bus fare option.

Bus fare would regularly cost me over \$20 a week to get too and from work each week and while I don't bus as much now I sympathise with the trouble of using public transport on a regular basis

Is borrowing and repaying through general rates the right approach for this regionally significant event?

Don't know

Would you support a levy to accelerate action in response to climate change?

Yes

What current or future projects or activities would you like to see funded by such a levy?

Electric based public transport (even possibly scooters and bikes funded by council for free use)

Any other comments on future funding for responding to climate change?

Increased focus on plastic recycling to reduce the amount being dumped into the oceans

Where did you hear about the consultation?
