Are you submitting on behalf of an organisation?

No, I'm submitting as an individual

Which age category are you in?

15– 24 years old

Do you wish to speak to your submission at a Council hearing?

No

Which bus fare structure option would you like to see trialled?

Option 1 (preferred): Fare-free for under 25s, students, Total Mobility and Community Services card holders

Tell us more about why you support the selected bus fare option.

I support this option because it will encourage the largest amount of people to catch the bus. It is important that the number of people using public transport increases due to reducing the effects of climate change and the reduction of the number of cars on the road. This is especially important with the cost of living increasing at the moment and with fuel prices drastically increasing due to global events.

Is borrowing and repaying through general rates the right approach for this regionally significant event?

Yes

Which option for distribution of rates in Ashburton River rating district do you support?

I don't have a preference

Would you support a levy to accelerate action in response to climate change?

Yes

Where did you hear about the consultation?

Social media (Facebook, Instagram)
