25-39 years old

No

Which bus fare structure option would you like to see trialled?

Option 1 (preferred): Fare-free for under 25s, students, Total Mobility and Community Services card holders

Tell us more about why you support the selected bus fare option.

I think that it is important in terms of habit-forming to make using public transport as easy and convenient as possible. So making it free for this population makes it an attractive option to make it more normal to take a bus rather than a car!

Any other comments on bus fares?

Needs to be cheaper than driving. When I was a post-grad student where my finances were tight it made no sense to take the bus as for the distance I was traveling it was cheaper to drive.

Is borrowing and repaying through general rates the right approach for this regionally significant event?
