**Are you submitting on behalf of an organisation?**

No, I'm submitting as an individual

---

**Which age category are you in?**

65+ years old

---

**Do you wish to speak to your submission at a Council hearing?**

No

---

**Which bus fare structure option would you like to see trialled?**

Option 2: \$2 flat fare for adults and \$1.20 for children across bus zones 1, 2 and 3

---

**Tell us more about why you support the selected bus fare option.**

Having a flat rounded and cheaper fare of \$2 could I believe to encourage more people to use public transport. This would result in the revenue loss from lower fares being offset by increased patronage. The current cost of rates is a significant cost for many people.

---

**Any other comments on bus fares?**

Transport is a significant contributor to global warming and I consider the environmental benefits of an efficient public transport system that would reduce the number of vehicles on the road should be taken into account when setting fares and considering the costs and benefits of public transport.
