Subject: Submission on draft Annual Plan 2022/23

Anonymous User just submitted 'Draft Annual Plan 2022/23 submission' with the responses below.

First name

Beverley

Last name

Cheyne

Email address

Suburb

Hillmorton, Christchurch

Phone number

Are you submitting on behalf of an organisation?

No, I'm submitting as an individual

Which age category are you in?

15– 24 years old

Do you wish to speak to your submission at a Council hearing?

No

Which bus fare structure option would you like to see trialled?

Option 1 (preferred): Fare-free for under 25s, students, Total Mobility and Community Services card holders

Tell us more about why you support the selected bus fare option.

I support option 1 because the people getting free fares are the people who need it most. Bus fares can get expensive if you're going to and from somewhere everyday. For those who don't have a lot of money being able to have an extra ~\$26 (based on adult, one zone, metrocard fare) a week means they could afford more basic living needs, or be able to save for emergencies. For me it means I could pick up shifts on lots of different days because I don't have to worry about how much of my pay is going towards travel expenses.

Any other comments on bus fares?

Option 2 would also be a good option as reducing fares could help encourage and/or allow more people to take the bus. It would be nice if child could be changed to student though to include tertiary students.

Is borrowing and repaying through general rates the right approach for this regionally significant event?

Don't know

How else might we pay for our share of this work?

No Answer

How do you think recovery from flooding of this scale – events that impact state highways, bridges, rail and power for example – should be funded in the future?

No Answer

Which option for distribution of rates in Ashburton River rating district do you support?

I don't have a preference

Would you support a levy to accelerate action in response to climate change?

Yes

What current or future projects or activities would you like to see funded by such a levy?

Making electric vehicles more accessible and continuing to make buses electric. Cleverly designed green spaces around cities.

Any other comments on future funding for responding to climate change?

Look more into how much pollution factories and corporations are creating and come up with solutions to reduce it.

Where did you hear about the consultation?
