Phone number

Are you submitting on behalf of an organisation?

No, I'm submitting as an individual

Which age category are you in?

40-64 years old

Do you wish to speak to your submission at a Council hearing?

Yes

Which bus fare structure option would you like to see trialled?

Option 2: \$2 flat fare for adults and \$1.20 for children across bus zones 1, 2 and 3

Tell us more about why you support the selected bus fare option.

I prefer to pay a flat fare to offset part of the cost of running the service even though I am a Community Service cardholder. I feel it is the right thing to do.

Any other comments on bus fares?

No

Is borrowing and repaying through general rates the right approach for this regionally significant event?

Yes

How else might we pay for our share of this work?

I am not sure there is any other realistic option other than hiking fares.

How do you think recovery from flooding of this scale – events that impact state highways, bridges, rail and power for example – should be funded in the future?

I thought that funding came from the government. I am surprised that is funded by ECAN.

Which option for distribution of rates in Ashburton River rating district do you support?

I don't have a preference

Any other comments on flood protection in Ashburton?

No

Would you support a levy to accelerate action in response to climate change?

No

Any other comments on future funding for responding to climate change?

Because I am not convinced the levy would be used properly to support remedial action. I have heard so much talk about doing something and seeing nothing done. I would have to hear what plans are in place to deal with Climate Change before I would consider changing my mind.

Any other comments on Environment Canterbury's draft Annual Plan or other matters?

No
