**Which age category are you in?**

25-39 years old

No

---

**Which bus fare structure option would you like to see trialled?**

Option 3: Tertiary student concession

---

**Tell us more about why you support the selected bus fare option.**

My family and I do not get any direct benefit from the other options, and paying an extra 65c per trip when I don't travel that often is better than another rates increase. I also believe that its the quality and frequency of the service not the cost of the service that is a deterrent for many people.

**Any other comments on bus fares?**

I feel that way option 3 was presented was misleading as this isn't an option since it has already been agreed to and adopted by Council ..its actually 'status quo'. That's reflected by the question not offering a "none of the above options" in the answers available to select.

**Would you support a levy to accelerate action in response to climate change?**
