Subject: Submission on draft Annual Plan 2022/23

Anonymous User just submitted 'Draft Annual Plan 2022/23 submission' with the responses below.

First name

Claudia

Last name

Roberts

Email address

Suburb

New Brighton, Christchurch

Are you submitting on behalf of an organisation?

No, I'm submitting as an individual

Which age category are you in?

15– 24 years old

Do you wish to speak to your submission at a Council hearing?

No

Which bus fare structure option would you like to see trialled?

Option 2: \$2 flat fare for adults and \$1.20 for children across bus zones 1, 2 and 3

Tell us more about why you support the selected bus fare option.

I have witnessed so many temp workers in my job that are finally on the uphill in life but struggle to actually get to work. Most try and find a bike because the bus is too expensive or bike and bus to not have to pay for more zones. This usually gets too hard after a while and they leave the job due to the hassle just to get to work. Takes some an hour just to get to work. This results in them going back on the benefit and costing the govt more. Would also reduce drunk drivers knowing they can get to a party from a bottomless brunch for only \$2 etc.

Any other comments on bus fares?

Loose change is easy, everyone has \$2 coins. I think you will see an increase in bus users with this easy option. Therefore rates won't have to increase as much hopefully and less pollution in the atmosphere from the decrease in car use. Solar powered buses everywhere!

Is borrowing and repaying through general rates the right approach for this regionally significant event?

No

How else might we pay for our share of this work?

Cut costs elsewhere

How do you think recovery from flooding of this scale – events that impact state highways, bridges, rail and power for example – should be funded in the future?

50 cent toll

Which option for distribution of rates in Ashburton River rating district do you support?

I don't have a preference

Would you support a levy to accelerate action in response to climate change?

Yes

What current or future projects or activities would you like to see funded by such a levy?

Solar powered everything Converting waste plastic into plastic that can be used again and again.

Any other comments on future funding for responding to climate change?

Solar powered everything

Where did you hear about the consultation?

Social media (Facebook, Instagram)
