Are you submitting on behalf of an organisation?

No, I'm submitting as an individual

Which age category are you in?

15– 24 years old

Do you wish to speak to your submission at a Council hearing?

No

Which bus fare structure option would you like to see trialled?

Option 1 (preferred): Fare-free for under 25s, students, Total Mobility and Community Services card holders

Tell us more about why you support the selected bus fare option.

Currently, going to and from town with my metro card costs \$5.30 as I usually spend more time at my destination than the free-return. This is more than the cost of petrol when driving, and often more than the cost of using a ride-share app, so it is hard to justify taking the bus. Free bus fares would enable me and many others to make busing our preferred mode of travel, and I believe there would be huge positive knock-on effects of this for the environment, community, wellbeing, congestion, and accessibility of Christchurch.

Is borrowing and repaying through general rates the right approach for this regionally significant event?

Don't know

Would you support a levy to accelerate action in response to climate change?

Yes

What current or future projects or activities would you like to see funded by such a levy?

No Answer
