No

Which bus fare structure option would you like to see trialled?

Option 1 (preferred): Fare-free for under 25s, students, Total Mobility and Community Services card holders

Tell us more about why you support the selected bus fare option.

Free buses for option one would reduce cars on the road and reduce emissions, have buses being utilised and much more efficient public transport like other cities around the world.

Any other comments on bus fares?

Way too expensive at present, not cost effective for a family to take bus as car is cheaper which is wrong. Busses should be the cost effective form of transportation, which is option 1 to make it better for the community and environment.
