Are you submitting on behalf of an organisation?

No, I'm submitting as an individual

Which age category are you in?

25-39 years old

Do you wish to speak to your submission at a Council hearing?

Yes

Which bus fare structure option would you like to see trialled?

Option 2: \$2 flat fare for adults and \$1.20 for children across bus zones 1, 2 and 3

Tell us more about why you support the selected bus fare option.

I support Option 2 as it is the most equitable option for all those wishing to use the service. It will also encourage those who do not use the service to consider it given the lower cost of the fare in comparison to operating a private vehicle. Employing Option 2 is a step in the right direction for reducing emissions and traffic, promoting the use of public transport through financially accessible fares.

Is borrowing and repaying through general rates the right approach for this regionally significant event?

Don't know

How else might we pay for our share of this work?

I'm unaware of the scope of this work- am submitting on Bus Fares submission only

Which option for distribution of rates in Ashburton River rating district do you support?

I don't have a preference

Would you support a levy to accelerate action in response to climate change?

Yes

What current or future projects or activities would you like to see funded by such a levy?

Functioning, effective and low emission public transport that connects people to the wider Canterbury region to reduce private vehicle use

Where did you hear about the consultation?
