Are you submitting on behalf of an organisation?

No, I'm submitting as an individual

Which age category are you in?

15– 24 years old

Do you wish to speak to your submission at a Council hearing?

No

Which bus fare structure option would you like to see trialled?

Option 1 (preferred): Fare-free for under 25s, students, Total Mobility and Community Services card holders

Tell us more about why you support the selected bus fare option.

I'm a student and I've been trying my best to avoid buying a car. But with the amount I have to pay to bus it almost seems more worth it for me to just buy a shitty car and keep it for a few years because then at least, I don't have to abide by bus timetables. I want to use the bus cause its better for the environment but with the current prices on top of everything else I'm paying for at the moment and only having time to work 1 day a week and trying to save money it just isn't smart for me to spend money on the bus. I think a lot more students would use the buses if they didn't have to pay and I think it's smart to also include community services cardholders in this bracket as well.
