No

Which bus fare structure option would you like to see trialled?

Option 2: \$2 flat fare for adults and \$1.20 for children across bus zones 1, 2 and 3

Tell us more about why you support the selected bus fare option.

I think its a great idea! The main barrier to my household using the bus is that its expensive!! But \$2 flat fare would be a good incentive to use it to get into town, or to the mall. I also like that this way everyone can benefit from it, not just the select group in option 1 or students in option 3.

Any other comments on bus fares?

They're too expensive and its not really an option if you happen to own a car as itd probably cost you similar to drive.

Is borrowing and repaying through general rates the right approach for this regionally significant event?
