Phone number

Are you submitting on behalf of an organisation?

No, I'm submitting as an individual

Which age category are you in?

40-64 years old

Do you wish to speak to your submission at a Council hearing?

No

Which bus fare structure option would you like to see trialled?

Option 2: \$2 flat fare for adults and \$1.20 for children across bus zones 1, 2 and 3

Tell us more about why you support the selected bus fare option.

Because it's the only option that gives me a discount on what I consider to be Christchurch's overpriced bus network!

Any other comments on bus fares?

All buses should be free. The cost should be levied from those who choose more polluting and congesting modes of transport.

Is borrowing and repaying through general rates the right approach for this regionally significant event?

Don't know

How else might we pay for our share of this work?

Don't know.

How do you think recovery from flooding of this scale – events that impact state highways, bridges, rail and power for example – should be funded in the future?

Don't know.

Which option for distribution of rates in Ashburton River rating district do you support?

I don't have a preference

Any other comments on flood protection in Ashburton?

No.

Would you support a levy to accelerate action in response to climate change?

No

Any other comments on future funding for responding to climate change?

I'm no expert, but surely this should be more targeted at individual and business polluters.

Any other comments on Environment Canterbury's draft Annual Plan or other matters?

No.
