No

Which bus fare structure option would you like to see trialled?

Option 2: \$2 flat fare for adults and \$1.20 for children across bus zones 1, 2 and 3

Tell us more about why you support the selected bus fare option.

I believe that in order to make travelling on Public Transport more affordable especially to those who struggle with day to day living that option 2 is in my opinion the best proposal .

Any other comments on bus fares?

In times where working a Monday to Friday Roster is a thing of the past and alot of companies require their employees to work any 5 days of a 7 day roster the weekend bus timetables also need to be looked into , For example if I work on Saturdays or Sunday and Public Holidays Starting at 6am I cannot catch the #80 bus before 630am Saturdays and 7am Sundays. There are alot of people in the same boat as myself and As I and alot of people rely on public transport to get to their place of employment etc I believe that this problem also needs looking into.

Is borrowing and repaying through general rates the right approach for this regionally significant event?

Yes
