We have to pay rates, so users should also.

Take it from existing funds or ask government for more as they waste money.

Government should pay if you cannot work within your budgets otherwise we cannot afford more costs, leave the roads damaged.

Option 2 (status quo): Keep the current distribution of rates in the Ashburton River rating district.

Climate change is an excuse to collect more money, it's a natural cycle of the earth. Get china and India to pay as they are the worst polluters.
