Subject: Submission on draft Annual Plan 2022/23

Anonymous User just submitted 'Draft Annual Plan 2022/23 submission' with the responses below.

First name

Connor

Last name

Millard

Email address

Suburb

St Albans, Christchurch

Are you submitting on behalf of an organisation?

No, I'm submitting as an individual

Which age category are you in?

15– 24 years old

Do you wish to speak to your submission at a Council hearing?

No

Which bus fare structure option would you like to see trialled?

Option 1 (preferred): Fare-free for under 25s, students, Total Mobility and Community Services card holders

Tell us more about why you support the selected bus fare option.

I would rather not have to pay to go to work where I'm earning money to live if I don't have to.

Any other comments on bus fares?

I'm not a fan of drivers who say the machine is broken and I have to pay for two zones when I'm travelling within one

Is borrowing and repaying through general rates the right approach for this regionally significant event?

Yes

How else might we pay for our share of this work?

Money from the government because presumably they don't want people to be flooded out of the homes and businesses

How do you think recovery from flooding of this scale – events that impact state highways, bridges, rail and power for example – should be funded in the future?

Rates or government as stated above

Which option for distribution of rates in Ashburton River rating district do you support?

Option 1 (preferred): Redistribute rates in the Ashburton River rating district.

Any other comments on flood protection in Ashburton?

I don't have knowledge about Ashbury on flood protection

Would you support a levy to accelerate action in response to climate change?

Yes

What current or future projects or activities would you like to see funded by such a levy?

Electric buses, better public transport, fewer cars in the city, more bike lanes - reducing car lanes to encourage more environment friendly transportation, more dense building in town and the city which would increase foot traffic and further reduce the use of cars, solar power subsidies

Any other comments on future funding for responding to climate change?

Get more funding.

Any other comments on Environment Canterbury's draft Annual Plan or other matters?

Not at this time

Where did you hear about the consultation?

Print ad or billboard
