Are you submitting on behalf of an organisation?

No, I'm submitting as an individual

Which age category are you in?

15– 24 years old

Do you wish to speak to your submission at a Council hearing?

No

Which bus fare structure option would you like to see trialled?

Option 2: \$2 flat fare for adults and \$1.20 for children across bus zones 1, 2 and 3

Tell us more about why you support the selected bus fare option.

I think it's fair and rational. As much as I would like to have fees free buses for the next 5 years, I remember my coworkers and other adults who use the bus frequently struggling with the fares so cheaper for everyone is an optimal solution for me

Is borrowing and repaying through general rates the right approach for this regionally significant event?

Yes

Which option for distribution of rates in Ashburton River rating district do you support?

Option 1 (preferred): Redistribute rates in the Ashburton River rating district.

Would you support a levy to accelerate action in response to climate change?

Yes

What current or future projects or activities would you like to see funded by such a levy?

I would like to see more electric buses

Any other comments on future funding for responding to climate change?

Metro card could be added to your phone to create less waste for a lot of people as well as something to do with transfer tickets as they are often littered everywhere too! Climate change posters and information in buses could be an option too

Where did you hear about the consultation?
