Are you submitting on behalf of an organisation?

No, I'm submitting as an individual

Which age category are you in?

40-64 years old

Do you wish to speak to your submission at a Council hearing?

Yes

Which bus fare structure option would you like to see trialled?

Option 2: \$2 flat fare for adults and \$1.20 for children across bus zones 1, 2 and 3

Tell us more about why you support the selected bus fare option.

I have stopped using the bus due to the high cost, but by choosing the second option of \$2 bus fare I would use the bus more. First option is ok for those it benefits but for the rest of us it would still be costly and uninviting. I believe in climate change and try to be careful in all I do in the environment and this option would be affordable for everyone and would help the environment in Christchurch.

Would you support a levy to accelerate action in response to climate change?

Don't know

Any other comments on future funding for responding to climate change?

That's a hard one as money is tight for everyone and taking more money may be hard for everyone, if times were different maybe then but I think wait till things settle after or when covid levels out.

Where did you hear about the consultation?
