Are you submitting on behalf of an organisation?

No, I'm submitting as an individual

Which age category are you in?

40-64 years old

Do you wish to speak to your submission at a Council hearing?

No

Which bus fare structure option would you like to see trialled?

Option 3: Tertiary student concession

Tell us more about why you support the selected bus fare option.

I am a rate payer who has used the bus service 5 days a week (from silverestream , west kaiapoi) and have paid fee increases in the last couple of years but lost frequency of services since 95 pegasus started through this area late 2020. I believe the fare structure you have for the zones is fare espically with the concession coming in for students. I dont wont to pay more rates for a service that I have lost in frequency and affected when I can get to work in ChCh CBD.

Any other comments on bus fares?

leave them as they are for now.

Is borrowing and repaying through general rates the right approach for this regionally significant event?

Yes

Which option for distribution of rates in Ashburton River rating district do you support?

I don't have a preference

Would you support a levy to accelerate action in response to climate change?

Yes

What current or future projects or activities would you like to see funded by such a levy?

solar / wind farms . Big increase in renewable energy locally. happy to pay extra if I could see tangible proof you were doing this.

Any other comments on future funding for responding to climate change?

see above

Where did you hear about the consultation?
