No

Which bus fare structure option would you like to see trialled?

Option 1 (preferred): Fare-free for under 25s, students, Total Mobility and Community Services card holders

Tell us more about why you support the selected bus fare option.

With rising fuel prices and emissions, the cost of getting to school for tertiary students like myself is becoming unsustainable. I would definitely use the bus system daily if it became free to use as a student. It also would broaden the areas I would be able to live in to be within access of the university.

Is borrowing and repaying through general rates the right approach for this regionally significant event?

Don't know

I don't have a preference

Yes
