Subject: Submission on draft Annual Plan 2022/23

Anonymous User just submitted 'Draft Annual Plan 2022/23 submission' with the responses below.

First name

Kevin

Last name

Hughes

Email address

Suburb

Motukarara, Tai Tapu

Phone number

Are you submitting on behalf of an organisation?

No, I'm submitting as an individual

Which age category are you in?

65+ years old

Do you wish to speak to your submission at a Council hearing?

No

Which bus fare structure option would you like to see trialled?

I don't have a preference

Tell us more about why you support the selected bus fare option.

My use is non-existent

Is borrowing and repaying through general rates the right approach for this regionally significant event?

Yes

How else might we pay for our share of this work?

A special, limited term levy that keeps goes long enough to build an investment fund for future events.

How do you think recovery from flooding of this scale – events that impact state highways, bridges, rail and power for example – should be funded in the future?

As above but for bridges, e-tolls need to be put on major bridges esp the Rakaia, Ashburton and Rangatata

Which option for distribution of rates in Ashburton River rating district do you support?

Option 2 (status quo): Keep the current distribution of rates in the Ashburton River rating district.

Any other comments on flood protection in Ashburton?

Build early and over build at least 200% to allow for growth

Would you support a levy to accelerate action in response to climate change?

No

Any other comments on future funding for responding to climate change?

Climate change is an over-used mantra. All pollution needs to be discouraged and reduced and funding that outcome is required. Weaponising "climate change" against farming and agri-business is rife and unconscionable. Ecan is populated by zealots who are doing exactly that.

Any other comments on Environment Canterbury's draft Annual Plan or other matters?

See above

Where did you hear about the consultation?
