Phone number

Are you submitting on behalf of an organisation?

No, I'm submitting as an individual

Which age category are you in?

40-64 years old

Do you wish to speak to your submission at a Council hearing?

No

Which bus fare structure option would you like to see trialled?

Option 1 (preferred): Fare-free for under 25s, students, Total Mobility and Community Services card holders

Tell us more about why you support the selected bus fare option.

Transport remains a significant cost for those on low incomes - students and those with community services cards. Anything we can do to reduce this and provide quality public transport is good for the community as a whole.

Any other comments on bus fares?

We likely need to work towards free, or nearly free public transport.

Is borrowing and repaying through general rates the right approach for this regionally significant event?

Yes

Which option for distribution of rates in Ashburton River rating district do you support?

I don't have a preference

Would you support a levy to accelerate action in response to climate change?

Yes

What current or future projects or activities would you like to see funded by such a levy?

Both climate mitigation and adaption - flood protection, cycleways, public transport.

Any other comments on future funding for responding to climate change?

This is a reality, we must act as fast as possible.
