**Are you submitting on behalf of an organisation?**

No, I'm submitting as an individual

---

**Which age category are you in?**

40-64 years old

---

**Do you wish to speak to your submission at a Council hearing?**

Yes

---

**Which bus fare structure option would you like to see trialled?**

Option 3: Tertiary student concession

---

**Tell us more about why you support the selected bus fare option.**

The focus should be on making the bus system profitable and also accessible. Not just accessible rate payer pay ecan for a bloated service

---

**Any other comments on bus fares?**

None

---

**Is borrowing and repaying through general rates the right approach for this regionally significant event?**

No

---

**How else might we pay for our share of this work?**

External agency audit for the whole bus transport structure looking for ways to make it self sustainable. Needs to be outside Ecan who will want to bloat triple figure salaries more

---

**How do you think recovery from flooding of this scale – events that impact state highways, bridges, rail and power for example – should be funded in the future?**

This has nothing to do with buses it's a government problem

---

**Which option for distribution of rates in Ashburton River rating district do you support?**

I don't have a preference

---

**Any other comments on flood protection in Ashburton?**

I know nothing about this and no idea what ur asking me

---

**Would you support a levy to accelerate action in response to climate change?**

No

---

**Any other comments on future funding for responding to climate change?**

This question is misleading ur saying it won't affect levy's now and laso indicate the levy is in the future so it's irrelevant to what ur asking

---

**Any other comments on Environment Canterbury's draft Annual Plan or other matters?**

Completely unsure of what ecan plan is

---

**Where did you hear about the consultation?**

Print ad or billboard
