Springston, Springston

Are you submitting on behalf of an organisation?

No, I'm submitting as an individual

Which age category are you in?

40-64 years old

Do you wish to speak to your submission at a Council hearing?

No

Which bus fare structure option would you like to see trialled?

Option 2: \$2 flat fare for adults and \$1.20 for children across bus zones 1, 2 and 3

Tell us more about why you support the selected bus fare option.

This fare structure would make it fairer for everyone using the buses as well as the rate payers.

Is borrowing and repaying through general rates the right approach for this regionally significant event?

Don't know

How else might we pay for our share of this work?

I don't know because I don't live in any flood affected areas of Christchurch.

How do you think recovery from flooding of this scale – events that impact state highways, bridges, rail and power for example – should be funded in the future?

Please see my above comment from the previous answer.

Which option for distribution of rates in Ashburton River rating district do you support?

I don't have a preference

Any other comments on flood protection in Ashburton?

I don't live in Ashburton either so I don't feel as though I can make any decisions about flooding in this area.

Would you support a levy to accelerate action in response to climate change?

Yes

What current or future projects or activities would you like to see funded by such a levy?

Not sure.

Any other comments on future funding for responding to climate change?

Don't know.

Any other comments on Environment Canterbury's draft Annual Plan or other matters?

Don't know.

Where did you hear about the consultation?
