Phone number

Are you submitting on behalf of an organisation?

No, I'm submitting as an individual

Which age category are you in?

15– 24 years old

Do you wish to speak to your submission at a Council hearing?

No

Which bus fare structure option would you like to see trialled?

Option 1 (preferred): Fare-free for under 25s, students, Total Mobility and Community Services card holders

Tell us more about why you support the selected bus fare option.

Gives a huge incentive for young people to use public services over cars. Better for the environment and hopefully removes stigma around not using a car. Young people get in the most car accidents and have the least money etc.

Is borrowing and repaying through general rates the right approach for this regionally significant event?

Don't know

Which option for distribution of rates in Ashburton River rating district do you support?

I don't have a preference

Would you support a levy to accelerate action in response to climate change?

Yes

Any other comments on future funding for responding to climate change?

The New Zealand government needs to expand funding to industries other than dairy. Dairy is bad for our environment and currently monopolizes our economy giving us an economic reliance on China and effecting out global political decisions regarding them.

Where did you hear about the consultation?
