No, I'm submitting as an individual

15– 24 years old

No

Which bus fare structure option would you like to see trialled?

Option 1 (preferred): Fare-free for under 25s, students, Total Mobility and Community Services card holders

Tell us more about why you support the selected bus fare option.

As a student I do not have the finances to own a car. This means I often cycle, however during the winter months I will bus occasionally. Again student finances means I don't want to put aside the money to bus everyday so this would be a huge encouragement for me to use the service more for everyday use as well as for getting out and exploring other parts of Christchurch where cycling may be too far of a distance on its own. So many students have cars and I think that have free fares would make a number of them reconsider their options.

Would you support a levy to accelerate action in response to climate change?

Yes
