No

**Which bus fare structure option would you like to see trialled?**

Option 3: Tertiary student concession

**Tell us more about why you support the selected bus fare option.**

As time in traffic increases i feel there will be a shift of more people using public transport. I think instead of reducing fares and having no money for future new routes or infrastructure and operations, I would rather we have the money available to encourage more public transport by having more buses and routes and better salaries for staff.
