Subject: Submission on draft Annual Plan 2022/23

Anonymous User just submitted 'Draft Annual Plan 2022/23 submission' with the responses below.

First name

Michele

Last name

Dyer

Email address

Suburb

Addington, Christchurch

Phone number

Are you submitting on behalf of an organisation?

No, I'm submitting as an individual

Which age category are you in?

25-39 years old

Do you wish to speak to your submission at a Council hearing?

No

Which bus fare structure option would you like to see trialled?

Option 1 (preferred): Fare-free for under 25s, students, Total Mobility and Community Services card holders

Tell us more about why you support the selected bus fare option.

This will provide equity to transport services

Any other comments on bus fares?

Would like to see a hop on/hop off scan structure be employed on the buses to reduce the time that a bus is stopped when onboarding passengers

Is borrowing and repaying through general rates the right approach for this regionally significant event?

Don't know

How else might we pay for our share of this work?

Join 3 waters

How do you think recovery from flooding of this scale – events that impact state highways, bridges, rail and power for example – should be funded in the future?

Join 3 waters

Which option for distribution of rates in Ashburton River rating district do you support?

I don't have a preference

Would you support a levy to accelerate action in response to climate change?

Yes

What current or future projects or activities would you like to see funded by such a levy?

Prioritise public transport, increase the number of bus lanes and frequency of buses. Include rapid bus lines from Rolleston, Rangiora, Halswell, Hornby and towards the airport. Increase inter suburb bus lines so not everything is routed through the city centre. Start planting the red zone now. Prioritise the retention and enhancement of wetlands. More separated bike lanes

Any other comments on future funding for responding to climate change?

Increase rates to enable the reduction of carbon emissions particularly on high emitting industries like dairy

Any other comments on Environment Canterbury's draft Annual Plan or other matters?

Increase riparian planting

Where did you hear about the consultation?
