Which age category are you in?

25-39 years old

Do you wish to speak to your submission at a Council hearing?

No

Which bus fare structure option would you like to see trialled?

Option 2: \$2 flat fare for adults and \$1.20 for children across bus zones 1, 2 and 3

Tell us more about why you support the selected bus fare option.

Because better public services are always something I want. Making buses cheaper and easier to access is better economically and environmentally. The current bus fares mean even when a bus is a reasonable option, I don't take it. The fares under Option 2 would make me more likely to take the bus when it was a reasonable option and more likely to consider the bus even when it's not the most reasonable option.

Any other comments on bus fares?

If not option two, I would support option one. Option three is not enough for me to choose it over the other two.

Is borrowing and repaying through general rates the right approach for this regionally significant event?
