Are you submitting on behalf of an organisation?

No, I'm submitting as an individual

Which age category are you in?

25-39 years old

Do you wish to speak to your submission at a Council hearing?

No

Which bus fare structure option would you like to see trialled?

Option 2: \$2 flat fare for adults and \$1.20 for children across bus zones 1, 2 and 3

Tell us more about why you support the selected bus fare option.

I believe all should have reduced fares as this would encourage all to use the buses more and those with reduced fees would not feel singled out as being poor.

Is borrowing and repaying through general rates the right approach for this regionally significant event?

Yes

How else might we pay for our share of this work?

Increase taxes

Which option for distribution of rates in Ashburton River rating district do you support?

Option 1 (preferred): Redistribute rates in the Ashburton River rating district.

Would you support a levy to accelerate action in response to climate change?

Yes

What current or future projects or activities would you like to see funded by such a levy?

more use of public transport and waste disposed of appropriately recycling as much as possible and reducing waste emissions. Investing in agricultural projects to reduce nitrogen losses to the atmosphere and waterways without getting rid of agriculture and drastically reduce emissions from industrial factories. Promoting drives to change the behaviour of the general public as well as businesses. We are all in this together.

Any other comments on Environment Canterbury's draft Annual Plan or other matters?
