Are you submitting on behalf of an organisation?

No, I'm submitting as an individual

Which age category are you in?

25-39 years old

Do you wish to speak to your submission at a Council hearing?

Yes

Which bus fare structure option would you like to see trialled?

Option 1 (preferred): Fare-free for under 25s, students, Total Mobility and Community Services card holders

Tell us more about why you support the selected bus fare option.

Great idea to reduce pollution and support low wage earners as well as supporting young one

Any other comments on bus fares?

Subscription fare is another alternative such as like Netflix, need to find fix cost to run bus system and that divide with local user, for example local can subscribe \$30 month which cover fix cost, where as tourists and international travelers will be charged with full price to cover variable cost, bus can be cashless, like super market can sell \$5 ticket(two trip) in multiple vouchers which help to generate more business and this subscription fare and vouchers eligible for tax rebate to promote business, i have full plan can calculation on excel to show you, call me on proud to support my local transportation better and pollution free

Is borrowing and repaying through general rates the right approach for this regionally significant event?

No

How else might we pay for our share of this work?

Subscription to service

How do you think recovery from flooding of this scale – events that impact state highways, bridges, rail and power for example – should be funded in the future?

Rates

Which option for distribution of rates in Ashburton River rating district do you support?

Option 2 (status quo): Keep the current distribution of rates in the Ashburton River rating district.

Any other comments on flood protection in Ashburton?

No

Would you support a levy to accelerate action in response to climate change?

Don't know

Any other comments on future funding for responding to climate change?

No

Any other comments on Environment Canterbury's draft Annual Plan or other matters?

More research needed for better outcome
