Are you submitting on behalf of an organisation?

No, I'm submitting as an individual

Which age category are you in?

15– 24 years old

Do you wish to speak to your submission at a Council hearing?

No

Which bus fare structure option would you like to see trialled?

Option 2: \$2 flat fare for adults and \$1.20 for children across bus zones 1, 2 and 3

Tell us more about why you support the selected bus fare option.

It is more affordable for everyone. My second preferred option would be Option 1. Having fares that cater to younger people is great as it encourages them to make more sustainable transport decisions. But the focus should be on everyone and creating equality for all bus users.

Any other comments on bus fares?

As a university student, I have stopped going to classes out at Lincoln because it is too expensive. Almost \$40 to get there and back 5 days a week. For most students that is unaffordable and hence most students choose to drive. It is vital that we have a robust and resilient public transport system to allow everyone to make sustainable transport decisions.

Is borrowing and repaying through general rates the right approach for this regionally significant event?

Don't know

How else might we pay for our share of this work?

By reducing spending in other unnecessary areas.

Which option for distribution of rates in Ashburton River rating district do you support?

I don't have a preference

Would you support a levy to accelerate action in response to climate change?

Yes

Where did you hear about the consultation?
