I support free fares as a way to make sure everyone can get around in a climate friendly manner, this is a great first step to encouraging lower transport emissions and better access for low income people to their community

**Any other comments on bus fares?**

I would like to see the free fares extended to everyone so that people who don't want to get rid of their cars entirely still see it as convenient and cost effective to use the bus for some trips e.g. travel to work.
