Are you submitting on behalf of an organisation?

No, I'm submitting as an individual

Which age category are you in?

40-64 years old

Do you wish to speak to your submission at a Council hearing?

No

Which bus fare structure option would you like to see trialled?

Option 3: Tertiary student concession

Tell us more about why you support the selected bus fare option.

Option 3 I am totally opposed to rate increases to fund bus fares for people who have opted to live outside Christchurch City. No more to be said really. People who wish to live and pay for cheaper housing outside the metro should not receive cheaper transport at the cost of CHCH City rates.

Is borrowing and repaying through general rates the right approach for this regionally significant event?

No

How else might we pay for our share of this work?

targeted rate increases for affected properties might be a suggestion, or central government.

How do you think recovery from flooding of this scale – events that impact state highways, bridges, rail and power for example – should be funded in the future?

Central government

Which option for distribution of rates in Ashburton River rating district do you support?

Option 2 (status quo): Keep the current distribution of rates in the Ashburton River rating district.

Would you support a levy to accelerate action in response to climate change?

No

Any other comments on future funding for responding to climate change?

Rate payers are not cash cows. Come on team think outside the square.

Where did you hear about the consultation?
