Email address

Suburb

Avonhead, Christchurch

Are you submitting on behalf of an organisation?

No, I'm submitting as an individual

Which age category are you in?

40-64 years old

Do you wish to speak to your submission at a Council hearing?

No

Which bus fare structure option would you like to see trialled?

Option 2: \$2 flat fare for adults and \$1.20 for children across bus zones 1, 2 and 3

Tell us more about why you support the selected bus fare option.

Seems to be fair for all, where as option 1 & 3 is only great for certain people

Any other comments on bus fares?

Would be nice to see a bit of a "reduction" in option 2 - might be more affordable for everyone

Is borrowing and repaying through general rates the right approach for this regionally significant event?

Don't know

How else might we pay for our share of this work?

Why not ask for volunteers or fundraising etc. why do you just overload rates?

How do you think recovery from flooding of this scale – events that impact state highways, bridges, rail and power for example – should be funded in the future?

How can we instead of just redo this every time floods come, why not see how we can make a solution. And ask quotes, don't just use the same old who actually know they can make a profit here

Which option for distribution of rates in Ashburton River rating district do you support?

I don't have a preference

Any other comments on flood protection in Ashburton?

N/a

Would you support a levy to accelerate action in response to climate change?

No

Any other comments on future funding for responding to climate change?

Maybe if the money was actually put to good use instead of talk talk talk (while flushing money down the drain) I would be more interested in this!

Any other comments on Environment Canterbury's draft Annual Plan or other matters?

N/A

Where did you hear about the consultation?
