No

Which bus fare structure option would you like to see trialled?

Option 1 (preferred): Fare-free for under 25s, students, Total Mobility and Community Services card holders

Tell us more about why you support the selected bus fare option.

Because I think targeting the free fare at certain demographics is a god choice. I think young people should be able to use the bus for free, student and low income earners who rely on the bus system.

Any other comments on bus fares?

I think that the fare system should be dropped. I hear a lot of friends and family who won't use the bus system because it cost the same as taking a car (regardless of the fact they are wrong because of wear and tear on the car and other hidden costs) they perceive that a bus is the same or more expensive.

Is borrowing and repaying through general rates the right approach for this regionally significant event?

Don't know

Which option for distribution of rates in Ashburton River rating district do you support?

I have not read any information on this. Only commenting on the bus fares
