No

Which bus fare structure option would you like to see trialled?

Option 2: \$2 flat fare for adults and \$1.20 for children across bus zones 1, 2 and 3

Tell us more about why you support the selected bus fare option.

I believe it would be best to pay something for the service provided and perhaps less desirables would use it if they had to pay

Any other comments on bus fares?

\$2 is very fair for the fare

Is borrowing and repaying through general rates the right approach for this regionally significant event?

Don't know

How else might we pay for our share of this work?

Allocation from government to reduce carbon emissions

How do you think recovery from flooding of this scale – events that impact state highways, bridges, rail and power for example – should be funded in the future?

I would need to think hard on that one

Which option for distribution of rates in Ashburton River rating district do you support?

Option 2 (status quo): Keep the current distribution of rates in the Ashburton River rating district.

Any other comments on flood protection in Ashburton?

Look at structures and make backup plans so that it won't happen again

More tracks for cyclists and safer roading for them too
