Phone number

Are you submitting on behalf of an organisation?

No, I'm submitting as an individual

Which age category are you in?

15– 24 years old

Do you wish to speak to your submission at a Council hearing?

No

Which bus fare structure option would you like to see trialled?

Option 1 (preferred): Fare-free for under 25s, students, Total Mobility and Community Services card holders

Tell us more about why you support the selected bus fare option.

Because I believe this option benefits those who need it most. Those with lower economic stability. These groups of people are at greater need for affordable public transport and deserve to have an equitable system, where they're prioritized.

Is borrowing and repaying through general rates the right approach for this regionally significant event?

Yes

How do you think recovery from flooding of this scale – events that impact state highways, bridges, rail and power for example – should be funded in the future?

I think having funding for damages cause by natural disasters in general would be best.

Which option for distribution of rates in Ashburton River rating district do you support?

I don't have a preference

Would you support a levy to accelerate action in response to climate change?

Yes

Any other comments on Environment Canterbury's draft Annual Plan or other matters?

Tangata whenua MUST be included in moving forward with climate care. Protection of waters and land is fundamental to Indigenous peoples culture and we cannot achieve what we want to without their leadership.

Where did you hear about the consultation?
