Are you submitting on behalf of an organisation?

No, I'm submitting as an individual

Which age category are you in?

40-64 years old

Do you wish to speak to your submission at a Council hearing?

No

Which bus fare structure option would you like to see trialled?

Option 3: Tertiary student concession

Tell us more about why you support the selected bus fare option.

Rates are too high already. We should not increase rates. I am a regular bus user but I don't want ratepayers to pay for my bus fare. It is just not fair. Times are hard. No increase in rates!

Any other comments on bus fares?

I will have to pay more because of my choice but getting everyone to pay more rates is painful.

Is borrowing and repaying through general rates the right approach for this regionally significant event?

Don't know

How else might we pay for our share of this work?

Set aside a certain amount each year for such recovery and unforeseen circumstances. Cut redundancy especially top end management pay. Spend less on consulting services.

How do you think recovery from flooding of this scale – events that impact state highways, bridges, rail and power for example – should be funded in the future?

As above

Which option for distribution of rates in Ashburton River rating district do you support?

I don't have a preference

Any other comments on flood protection in Ashburton?

Make sure we provide for flooding provision when we intensify our residential and commercial development. Plan well.

Would you support a levy to accelerate action in response to climate change?

Don't know

Any other comments on future funding for responding to climate change?

Cut costs

Any other comments on Environment Canterbury's draft Annual Plan or other matters?

Nil
