Are you submitting on behalf of an organisation?

No, I'm submitting as an individual

Which age category are you in?

25-39 years old

Do you wish to speak to your submission at a Council hearing?

No

Which bus fare structure option would you like to see trialled?

Option 2: \$2 flat fare for adults and \$1.20 for children across bus zones 1, 2 and 3

Tell us more about why you support the selected bus fare option.

We want to reduce our carbon footprint and do not own a car. Bus is our primary mode. Of transport for work and everyday activity. Current prices are very high and sometimes we take Uber/Ola as combined with discounts it works out cheaper than bus fare for zone two or three.

Any other comments on bus fares?

I know many who would switch to bus instead of car if the prices are made cheaper. Most of the work places are in Central City where parking is difficult and many travel from sub irba areas to city for work. Please do not make prices only for below 25.

Is borrowing and repaying through general rates the right approach for this regionally significant event?

Yes

Which option for distribution of rates in Ashburton River rating district do you support?

Option 2 (status quo): Keep the current distribution of rates in the Ashburton River rating district.

Would you support a levy to accelerate action in response to climate change?

No

Any other comments on future funding for responding to climate change?

Please. Reallocate existing funds responsibly.
